Re: Application for a Certified Retirement Community

To Whom It May Concern:

Promoting the settlement of our state, Stephen F. Austin brought the original 300 colonists to an area of Texas now known as Brazoria County in the early 1800s. It is only fitting that this area, which is in my legislative district, be promoted again as a great place for people to live.

I want to add my support to West Columbia being designated as a Texas Retirement Community by the Department of Agriculture.

West Columbia is located in a historic area of Texas that is proud of its heritage and committed to attracting more tourism. At the same time, it is a great place to live as it offers a small-town environment with all the amenities of the big city within a short driving distance - world-known medical care, cultural events, major sports teams, shopping, and educational opportunities.

For those who love the sea, the coast is only minutes away. Locally, residents can enjoy fishing, golfing, and birding or just enjoy the scenic countryside.

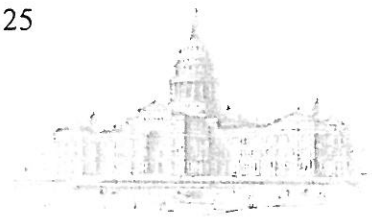
However, the major thing the town has to offer is the quality of the people who live in this area. Here is where you find the families who have made this state great with their strong work ethics, their love of their families and country, and their pride in their towns and state.

Please accept my strong support of West Columbia's efforts to secure this designation.

Sincerely,

Dennis Bonnen

Dennis Bonnen
State Representative, District 25



TEXAS GULF BANK, N.A.

Debbie Sutherland
City of West Columbia
512 East Brazos
West Columbia, TX 77486

Dear Ms. Sutherland:

I am excited to learn that the city of West Columbia is applying to be recognized as a Certified Retirement Community by the State of Texas, Department of Agriculture. Holding this designation provides the opportunity for a win-win situation for both the city, as well as any retiree who chooses to relocate to this area.

The designation affords the city opportunities to increase awareness of its value as a historic and recreational tourist destination, in addition to a premier living community for retirees. The results of this exposure could provide our community significant economic development growth.

Nestled between the Brazos and San Bernard Rivers, West Columbia, Texas offers residents a warm, welcoming community away from fast-paced big city life, yet is close enough to reach any amenity or basic need necessary. Its prime location is close to a community college, high caliber medical facilities, shopping, dining, recreational opportunities, coastal tourism as well as historic tourism and entertainment venues.

I support the city of West Columbia's efforts to encourage retirees and potential retirees to make their home in our community through the Certified Retirement Community program.

Sincerely,

Lynne M. Robbins

Re: Certified Retirement Community

To whom it may Concern,

As a citizen and business owner of West Columbia, I whole heartedly support our effort to become a certified retirement community. I believe that this designation would go hand in hand with our desire to grow and market our city. Our city has been the site of a great amount of Texas history and has some wonderful potential for tourism. We also have a great proximity to the coast and the great resort of Columbia Lakes for recreational opportunities. I think the certification is a great idea.

Sincerely,

Brian Lane

Day Care

Monday, April 13, 2009

To Whom It May Concern:

I have been a resident and business owner of West Columbia for over 20 years. I am very proud to call West Columbia my home. I feel West Columbia would be the prefect city to qualify for the State Certified Retirement Community. Our community is small enough to have that "home town feeling" but it is large enough to offer its residents a variety of opportunities and services. We are a city rich in history and culture.

West Columbia is a family oriented community that has several very nice subdivisions, which offer homes in a choice of price ranges. We have a wonderful First Capital City Park that offers facilities for softball tournaments, family gathering, RV services, and a cool dip in the pool on a hot summer day.

Another great attribute to our city is our location. It is great to live in a town where you feel safe and loved, and yet are within 30 minutes of a major city. There's shopping for the ladies and wonderful golf amenities for the gentlemen. Of course the men can enjoy shopping while the ladies play a round of golf.

I fully support the City's application and hope the certification will help towards the continued growth of West Columbia. I am looking forward to my retirement years in West Columbia and I hope many new retirement residents join me.

Sincerely,

Missy Lowery

Coburn Chiropractic center

www.coburnchiropractic.com

Dear Mrs. Sutherland,

As a long time resident and business owner in this community, I am excited that West Columbia is applying to be recognized as a Certified Retirement Community. My chiropractic practice has a large number of retirees as patients and I am pleased to provide conservative care to these wonderful people.

West Columbia has so much to offer retirees. We have beautiful parks, quiet subdivisions, growing churches, a number of community organizations, and convenient shopping. With the completion of state highway 36, we are even more conveniently located for our citizens. We are also the home of the first capitol of the republic of Texas. History is everywhere. Just minutes away are world known medical centers, golf courses, the theater, and concerts.

I am proud of the fact that our community leaders are continually planning to make our city even more "user friendly".

I look forward to hearing that we have been accepted as a Certified Retirement Community by the state of Texas.

The Honorable Laurie Kincannon
West Columbia City Hall
P O Box 487
West Columbia, TX 77486

Dear Mayor Kincannon:

As a business owner in West Columbia, I cannot tell you how excited I am in the opportunity for West Columbia becoming a State Certified Retirement Community.

West Columbia has many wonderful benefits for anyone considering moving here. Our excellent school system offers many opportunities for volunteers. We have a safe community because of our outstanding police and fire departments. The mild winters and long summers offer the choice for many outside activities. Our proximity to the Gulf Coast offers many wonderful outdoor activities such as fishing, bird watching, boating and many other opportunities for families. We are only an hour away from Houston with it's museums, sporting events, shopping and cultural activities. Also, we have some of the finest medical facilities in the world located in Houston.

With all these wonderful opportunities, the First Capital of Texas has to offer, I believe West Columbia would be a great match for becoming a State Certified Retirement Community.

Sincerely,

Jim Stubbs, Jr

Dear Debbie,

Central Emergency Medical Service is excited at the prospect of our city becoming a Certified Retirement Community. Please be assured that Central EMS is prepared and looking forward to continuing to provide quality emergency medical service to our community.

Since approximately 40% of our patient population currently consists of citizens age 65 and older, we are committed to providing quality emergency medical care to this unique population and are encouraged at the prospect of seeing that population grow through this distinguished designation being sought by West Columbia.

Please keep us posted on further developments and know that you can count on our support in this exciting endeavor!

Debbie A. Sutherland, City Manager
City of West Columbia
512 East Brazos
West Columbia, Texas 77486

Dear Debbie:

The Alliance is very pleased to support your efforts to become a Certified Retirement Community! We applaud the extra effort your City and EDC are undertaking to position itself for success in the retirement sector, which is a significant factor in local economic development.

As you know The Alliance has as one of its goals the diversification of the economic base in Brazoria County. Your efforts toward becoming a Certified Retirement Community will certainly help us to attain that goal successfully.

Please let me know if there is anything else we can do to help the City of West Columbia in receiving approval as a Certified Retirement Community.

Best regards,

West Columbia, TX 77486

Dear Debbie:

The Brazoria County News offers its support in the city's efforts to be designated as a Certified Retirement Community. We believe such a designation could be a great tool in bringing new residents to this area.

Our community has much to offer people in the retirement sector, including nearby healthcare facilities, local pharmacies, first class parks and recreation, retail and shopping, senior group activities and active religious organizations.

The Brazoria County News, established forty-seven years ago, serves approximately 30,000 local readers, many of who are themselves now at retirement age. We enjoy providing local news and shopping information those readers need each week. We also look forward to broadening our horizons and the opportunity to bring in new friends who will enjoy our friendly community as well.

We will be glad to assist the City in publishing or providing any news and information that may be needed to help win approval as a Certified Retirement Community.

Sincerely,

Becky Toney Hutchinson

Dear Mrs. Sutherland:

I am pleased to hear that the City of West Columbia is making an application to become a Certified Retirement Community. This certification will be a great boost to our community to encourage those retiring to come live in our community.

After reviewing information about the program, I am in support of the city's application. New residents in our community will not only support our existing businesses and activities, but encourage new businesses and activities as well. We have great opportunities for retirees to become active in the community through volunteerism in our schools, museums and civic organizations.

Thank you for all the work that has gone into the application and I look forward to hearing that West Columbia has received this designation.

Sincerely,

Angie Yaws, Owner

May 1, 2009

As a business owner, employer, property owner and taxpayer, and as one keenly interested in and concerned with the future growth and development of West Columbia, I commend and support your efforts in obtaining the Certified Retirement Community designation.

This is "clean" business that should, on the net, have a very positive effect on our community, particularly if we take steps to encourage and develop the attendant peripheral services and businesses.

Having lived in a community that had a large retirement focus, I believe that your efforts in obtaining this designation will be worthwhile, as we have the basics in and around our community to support these facilities. Our small-town atmosphere of concern and friendliness, safety, and proximity to numerous medical and other lifestyle support facilities establishes the groundwork for what should be a successful effort, and makes West Columbia a most favorable candidate for this designation.

Sincerely,

Jack Randall Hays
Owner
Hays Insurance Agency

Re: Support for Certified Retirement Community (CRC) Designation

Dear Debbie,

Brazosport Regional Health System (BRHS) is pleased to learn about your pursuit of CRC-designation. We believe this is a great opportunity for our region, and support your endeavor wholeheartedly.

BRHS has grown over the years in its pursuit of becoming a regional facility. We have shared this vision with you and your community, and we believe that the opening of our urgent care center in West Columbia later this year is strong testimony to our shared goals and vision for our region.

Our partnership in West Columbia could not have happened without strong city leadership, as well as strong community support. West Columbia has certainly demonstrated that it is a community that is not going to be stagnant, but continually look for opportunities to grow and prosper, to the benefit of the citizens of the community.

Again, you have our full support and encouragement for your CRC designation. We believe this is important for West Columbia and for all of western and southern Brazoria County. Please let me know if we can assist you in any way.

Sincerely,

Daniel L. Buche, FACHE

West Columbia, TX 77486

From: *Naomi A. Smith*
32901 FM 1301
West Columbia, TX 77486

In 1970, my husband and I decided to move our children from Houston to a calmer, safer environment and West Columbia was our choice. We decided on WC for many reasons, and not just because this was my husband's birthplace, but also because it had the features we needed for four pre-teen children. We know we made the right decision and let me tell you why!

1) We wanted a place where families come first; a place where we would feel safe when our children visited in the homes of their friends.
2) We wanted churches and well attended churches because we feel that strengthens families.
3) We wanted schools that would provide our children with the basic education to attend and do well in college and become professional, productive citizens.
4) We wanted schools that offered a variety of extra-curricular activities as each of our four children had different interests, and we know, busy, committed children are not usually the ones who get into trouble.
5) We wanted to feel safe in our home and in our community.
6) We wanted to be close to the Medical Center, if serious illness entered our lives.
7) We wanted an area that was pro-active and progressive in looking for ways to better the lives of the citizens.

Locating in West Columbia was not a mistake! We found the right place for our children to grow, be educated and become productive citizens. We met our goals!

1. We quickly made new friends through our children and their activities and we found the values of these friends were the same as ours.

2. We found our church of choice was one that strengthened our children's faith and they each remain active in our faith today.

3. Our three living children are college graduates with most successful careers. All are well traveled and respected, involved citizens in their communities.

4. We were safe then and I, a widow, remain safe and feel safe in my home today.

5. Our oldest son attended college on a football scholarship, our oldest daughter on academic scholarships, and our youngest daughter received scholarships because of her fine arts involvements.

6. We needed the Medical Center when our oldest son was diagnosed with meningitis and, again, in 2001, when my husband developed cancer.

7. We have the schools, the city government and the community organizations that are pro-active and strive at all times to make West Columbia a better place to live, to grow and even to die.

But we found much more in West Columbia!

We found love and caring by friends, acquaintances and even strangers as they opened their hearts to us in 1982 when we lost a son and daughter-in-law to a drunk driver in Caldwell, TX. Then again, in 1982 when our youngest daughter and her husband found they were to have a child with many disabilities, West Columbia was here for them and for us. In 2008, this child who was not supposed to be born alive but lived for 22 years, died, and West Columbia once again rallied and offered support and love.

Teaching in the high school, I saw firsthand the devotion of the teachers and administrators. I saw a school system that worked to bring out the best in each student and I saw teachers who encouraged the students to broaden their horizons in all ways. My children were encouraged to run for state offices of the organizations to which they belonged, and those conventions and the friends they made are still a big part of their lives. These activities also whetted their appetites for new experiences and helped them to try new adventures.

My husband and I discovered many organizations where we could volunteer and feel useful, and they were not always the same ones. He loved his VWF and American Legion, and the Museum became my passion. Together we enjoyed our church activities, as well as many organizations where he could display the classic planes he restored. In addition, of course, we enjoyed our children's involvement and the activities that produced.

And, today, I see a city government (the mayor, the city council, city manager, and numerous volunteers on committees) working hard to make West Columbia even better! New businesses are coming into town; historical sites have been developed and restored; pride in the city's appearance has increased; and West Columbia is just getting better in all ways.

Why am I telling you all of this? Because I believe in West Columbia, its citizens, its government and all it has to offer. I am so glad we moved here in 1970 and I am glad I am still living in such a loving, welcoming community that is open to new ideas and new ways to do things—and in a place I feel safe and loved.

Thank you, each and every one.

Naomi A. Smith

West Columbia, Texas 77486

Dear Mrs. Sutherland,

I am very pleased to learn that the City of West Columbia is preparing an application to become designated as a Certified Retirement Community. This certification will be a benefit to our community and should encourage those who are retiring to locate here.

After reviewing information about the program, I am in support of the city's application. New residents in our community will not only support our existing businesses and activities, but will encourage new businesses and activities as well. We have many opportunities for retirees to become active in the community through volunteering in our schools, museums, civic organizations, and the festivals held here each year.

Thank you for all the work that has gone into the application and I look forward to hearing that West Columbia has received this designation.

Sincerely,

Bill Womack
